

FLORK TOKEN

WHITEPAPER

WWW.FLORKI.IN

Abstract

Flork is a decentralized cryptocurrency built on Binance Smart Chain. Flork's goal is to create a sustainable, community-driven ecosystem that encourages users to keep their tokens and participate in the project's growth. Flork includes transaction fees used to fund the Flork Ecosystem Growth Fund, the liquidity pool, and reward holders for holding the token. Additionally, profits generated by Flork are allocated to community initiatives and reinvestment in the ecosystem.

Introduction

Flork is a new cryptocurrency that aims to create a sustainable and community-driven ecosystem. Flork is built on the Binance Smart Chain, which allows for fast and low-cost transactions. The Flork team is dedicated to building a strong and thriving community that benefits from the project's success.

Tokenomics

Flork has a maximum supply of 1 billion FLK tokens. The tokens are distributed as follows:

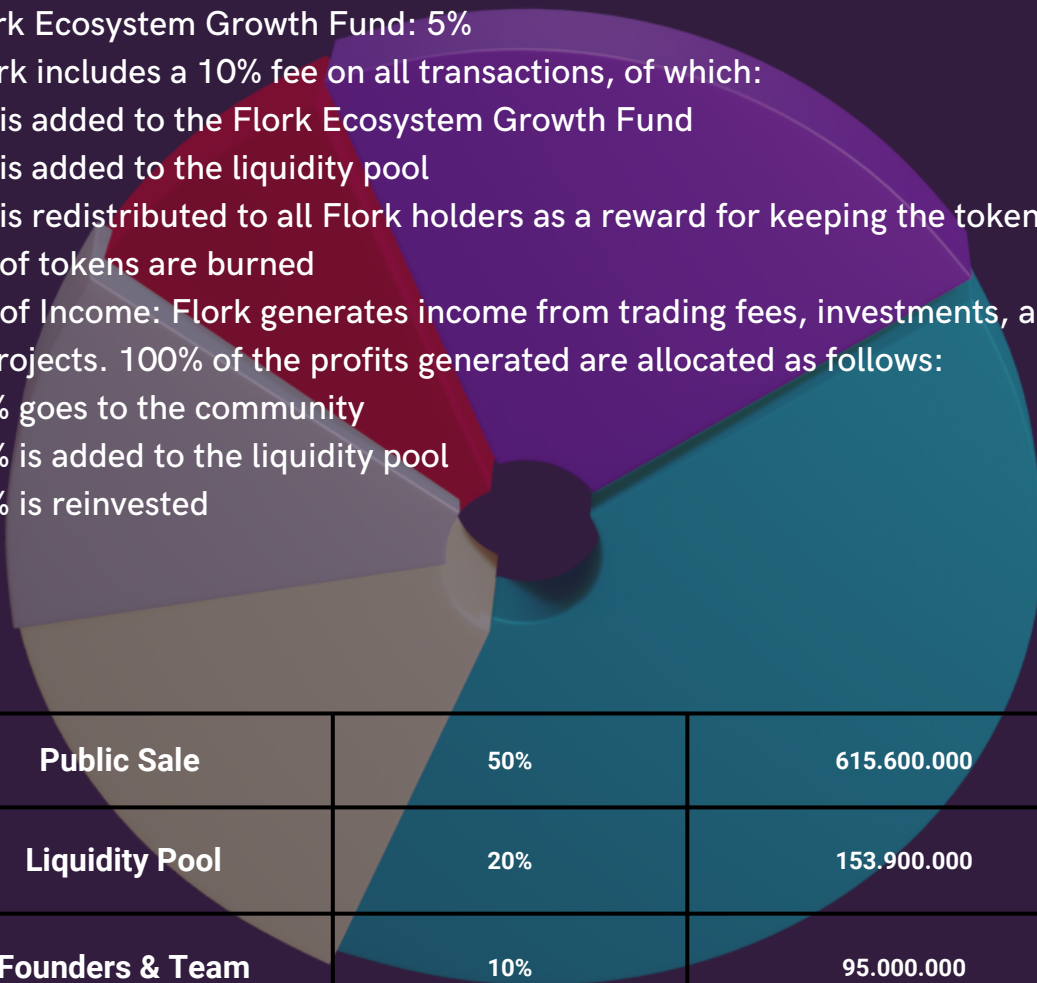

- Public Sale: 50%
- Liquidity Pool: 20%
- Founders & Team: 10%
- Marketing & Ecosystem: 10%
- Reward & Airdrops: 5%
- Flork Ecosystem Growth Fund: 5%

Flork includes a 10% fee on all transactions, of which:

- 4% is added to the Flork Ecosystem Growth Fund
- 3% is added to the liquidity pool
- 2% is redistributed to all Flork holders as a reward for keeping the token
- 1% of tokens are burned

Source of Income: Flork generates income from trading fees, investments, and other projects. 100% of the profits generated are allocated as follows:

- 30% goes to the community
- 20% is added to the liquidity pool
- 50% is reinvested

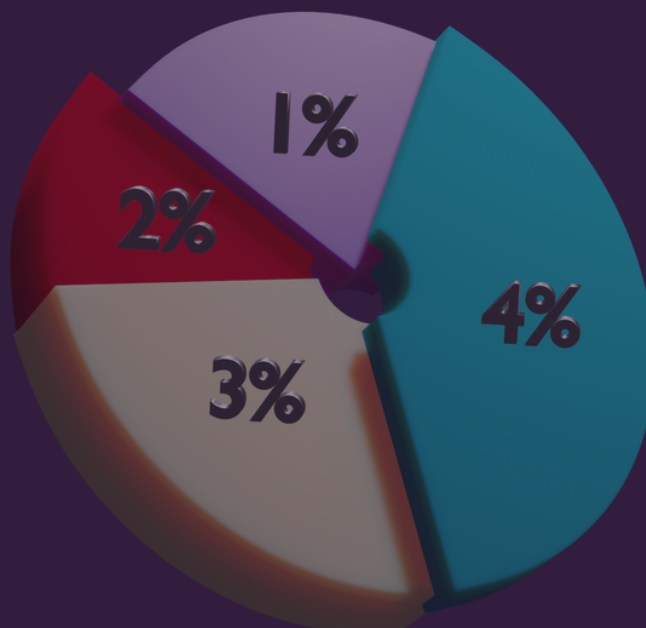

Public Sale	50%	615.600.000
Liquidity Pool	20%	153.900.000
Founders & Team	10%	95.000.000
Marketing & Ecosystem	10%	85.500.000
Reward & Airdrops	5%	50.000.000

Transaction fees

- Flork includes a 10% fee on all transactions, of which
-
- 4% is added to the Flork Ecosystem Growth Fund
-
- 3% is added to the liquidity pool
-
- 2% is redistributed to all Flork holders as a reward for keeping the token
-
- 1% of token are burned.

Flork Ecosystem Growth Fund

The Flork Ecosystem Growth Fund is used to fund development and marketing initiatives for Flork. The fund is managed by the Flork team and community members who hold a minimum amount of FLK tokens. The Flork Ecosystem Growth Fund aims to ensure the long-term success and sustainability of Flork.

Liquidity Pool

The liquidity pool is used to provide liquidity for FLK tokens on decentralized exchanges. The liquidity pool is funded by transaction fees and profits generated by Flork. The liquidity pool aims to ensure that FLK tokens can be easily traded and are not subject to price volatility.

Community and Marketing

The Flork team is dedicated to building a strong and active community around the project. The team will host community events, competitions, and initiatives to engage with users and incentivize participation in the Flork ecosystem. Additionally, the team will engage in marketing efforts to promote the project to a wider audience.

Token Utility

Flork can be used for many purposes within the Flork ecosystem, including:

Purchase of NFTs: Flork holders can use their tokens to purchase unique and valuable NFTs created by content creators and artists in the Flork community.

Donating to Charities: Flork holders can donate their tokens to charitable organizations or causes supported by the Flork community.

Tipping Content Creators: Flork holders can reward content creators for their contributions, creativity, and involvement in the Flork community.

Governance

Flork holders will have the opportunity to participate in governance and decision-making through community voting. The governance structure will be designed to ensure that the voice of the community is heard and that decisions are made in the best interests of the Flork ecosystem. The development team will work closely with the community to implement new features, improve existing ones, and ensure that Flork remains a fun and engaging meme token for years to come.

Marketing

Flork will be marketed through various channels including social media, partnerships and events. The marketing strategy will focus on creating engaging and relatable memes, fostering a sense of community and belonging, and attracting new users who share our values and vision. Flork will also partner with other meme and influencer communities to expand its reach and exposure.

Governance

The Flork team is exploring options for implementing a governance system that allows community members to vote on proposals related to the project. The governance system aims to ensure that the community has a voice in the direction and development of Flork.

Conclusion

Flork aims to create a sustainable and community-driven cryptocurrency ecosystem that benefits all users. The project includes transaction fees, a liquidity pool, and a Flork Ecosystem Growth Fund that aim to ensure the long-term success and sustainability of the project. The Flork team is dedicated to building a strong and active community around the project and looks forward to working with community members to develop and grow the project over time.
